

BUREAU OF JUVENILE JUSTICE – W. J. MAXEY BOYS TRAINING SCHOOL
RESPONSES TO SECTION 705 - FOR CALENDAR YEAR 2003

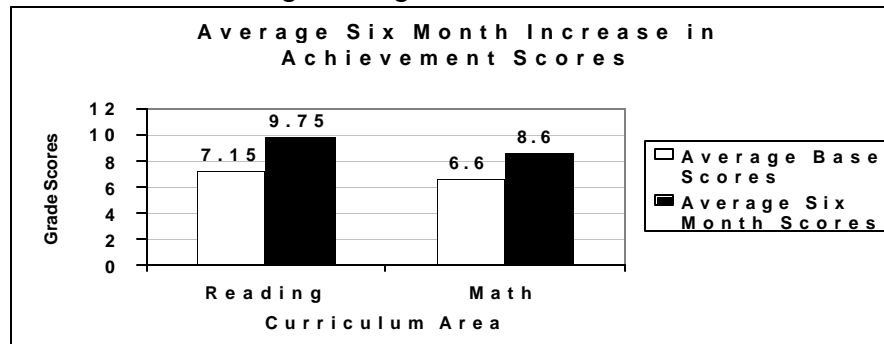

- 1) **Section 705.** The department shall report on the W. J. Maxey facility to the house and senate appropriations subcommittees on the family independence agency budget, house and senate standing committees on human services matters, house and senate fiscal agencies and policy offices, and state budget director as part of its annual budget presentation. The report shall include the following:
- a) **Population reintegration goals for juvenile justice wards including, but not limited to, the categorization of positive outcomes and recidivism by age and incarceration type.**

Recidivism (see Recidivism data, pages 36-44)

Internal Outcomes

Academic Achievement

- Six-month increase in achievement scores averages 2.3 grade levels

- 12 Students received High School Diplomas
- 37 GEDs awarded
- Continued partnership with Washtenaw Community College
- Teachers were brought in from Washtenaw Community College. Twenty-five (25) youth participated in college classes with each student averaging 10 credits a semester. In 2003 the following classes were offered through Washtenaw Community College:
- Intro to Hospitality Management
- Composition I
- Intro to Government

- Study Skills and Speed Reading
- Intro to Philosophy
- Comparative Religions
- Mathematics (various levels)

Customer Satisfaction Survey (Campuswide)

Percentage of Youth's Parents or Guardians Who Reported:

- Resident Safe and Well Cared For 95%
- Parents/Guardians Encouraged To be Involved in Treatment 93%
- Resident Receiving Needed Medical and Dental Care 81%

b) Facility media policy to ensure reinforcement and consistency with treatment plans and desired ward outcomes.

TV and movie viewing controlled through centralized video system. Programming preselected with educational emphasis. No movies with greater than PG rating shown.

c) Staff and resident safety.

2003 Resident on Resident Assaults Down 44% from 2002 levels

Center		Youth on Youth Assaults	
		2002	2003
Green Oak	High Secure	30	XXX
Huron	Mental Health	28	XXX
Woodland West	High Secure	6	32
Summit	Sex Offender	8	XXX
Woodland East	Med / High Flex	1	7
Sequoyah	General Population	43	26
TOTAL		116	65

Woodland West figures for 2003 represent the inclusion of residents from Green Oak and Huron Centers. Net decrease for this population for 2003 is 50% (64 to 32).

2003 Resident on Staff Assaults Down 26% from 2002 levels

Center		Youth on Staff Assaults	
		2002	2003
Green Oak	High Secure	5	XXX
Huron	Mental Health	12	XXX
Woodland West	High Secure	1	14
Summit	Sex Offender	3	XXX
Woodland East	Med / High Flex	0	1
Sequoyah	General Population	2	2
TOTAL		23	17

* See previous footnote for computations.

2003 Resident Suicide Attempts Down 33% from 2002 levels

Center		Youth Suicide Attempts	
		2002	2003
Green Oak	High Secure	1	XXX
Huron	Mental Health	2	XXX
Woodland West	High Secure	0	2
Summit	Sex Offender	0	XXX
Woodland East	Med / High Flex	0	0
Sequoyah	General Population	0	0
TOTAL		3	2

* See previous footnote for computations.

2003 Youth Sexual Incidents Down 68% from 2002 levels

Center		Youth Sexual Incidents	
		2002	2003
Green Oak	High Secure	8	XXX
Huron	Mental Health	16	XXX
Woodland West	High Secure	14	11
Summit	Sex Offender	10	XXX
Woodland East	Med / High Flex	0	5
Sequoiah	General Population	4	1
TOTAL		52	17

* See previous footnote for computations.

d) Outcome based service and treatment program plan for wards who are sex offenders or substance abusers.

Outcome Based Substance Abuse Treatment:

- Treatment coordinated by consultants on each particular hall funded through RSAT grant
- Complete biopsychological social assessment including psychiatric review completed within 30 days of admission.
- Specialized treatment materials patterned off the Maxey Model with substance abuse treatment emphasis.
- Individual, family, treatment group approaches utilizing relapse prevention and 12 step treatment approaches.
- Participation in recovery support groups: Children of Alcoholics and Addicts, Alcoholic Anonymous, Narcotics Anonymous and Healthy Sexuality encouraged in preparation for community reintegration.
- Spiritual development and Restorative Justice components utilized.

Sexual Offender Treatment:

- 70% of direct care staff have completed or are attending certified Sex Offender training offered through the Bureau in conjunction with the University of Michigan School of Social Work and Dr. David Burton. Training covers needs assessment, establishing behaviorally verifiable goals and objectives and assessing treatment efficiency and risk for reoffense.
- Three Masters level clinicians or managers per living unit all with sexual offender treatment certification.

- Staff monitor and record observable behavioral benchmarks such as empathy, assertiveness and responsibility to establish progress toward operation of acceptable values and internalization of treatment concepts.
- The 'Maxey Model' utilizes a cognitive behavioral approach to guide a step by step process of completion of treatment tasks. This model was developed by identifying aspects of nationally known sexual offender programming and combining them to cover recognized offender needs.
- Restorative Justice principles including victim awareness, competency development and community services are used throughout the program to promote demonstration and internalization of learned concepts.
- Sexual Offender treatment is supplemental with family work, psychiatric care, social skills programming, spiritual development and recreational therapy as identified in individualized treatment planning.

e) Facility procedure following traumatic campus occurrences such as, but not limited to, violent and sexual assaults.

Procedures For Traumatic Campus Occurrences:

- Collection boxes for Unusual Incident Reports, grievances throughout campus.
- Collected daily by Public Safety Officers.
- Recorded by Administrative Secretary.
- Reviewed each morning by center representatives and designated for internal or external follow-up.
- Weekly meeting of Center Directors for status update on all pending investigations.
- BJJ investigator replaced OIG personnel. Reviews and investigates all serious incidents.
- If abuse or neglect is detected or reported, referral is made to the Office of Children and Adult Licensing.
- If criminal behavior is suspected or reported, matter is referred by Public Safety Chief to Michigan State Police – Brighton Post.

f) Quality control process for resident service and release plans.

- Timeliness of treatment plan completion and distribution recorded for each treatment center at Maxey.
- Quality is monitored by the program manager for each treatment unit. The automated reporting system requires manager review and approval. Center Director provides a second level of quality and timeliness review prior to distribution.

g) Findings of all federal investigations of the facility.

Investigators for the United States Department of Justice conducted a comprehensive facility and program review in February and March of 2003. Formal results of that investigation have not yet been released. No timeframe for pending release is currently available.
